Feedback Coursework

Dear [Redacted]

Here is your feedback for the planning area of the coursework.
(As discussed in the lesson)

Folders and File Organisation:

Your folders are fairly organised. Please make sure you are always saving files in the folder specified on the DiDA project brief website.

Initial Plan:

Good initial plan, its very clear and easy to read.

Ongoing Plan:

You have an ongoing plan but it has not been filled in.

Project Log:

Your project log is really good, please keep up with adding screenshots when completing your diary entries.

Please note that these comments are based on the files contained within your D201 folder.

Mr Robinson.
